

## **VERISURE JOINS THE UNITED NATIONS GLOBAL COMPACT**

Verisure, the leading European provider of professionally monitored security systems, announced today that it has joined the United Nations Global Compact (UNGC), a voluntary leadership platform for the development, implementation and disclosure of responsible business practices.

With this announcement, Verisure is proud to join thousands of other companies committed to taking responsible business action to create the world we all want. The UN Global Compact is a call to companies everywhere to align their operations and strategies with ten universally accepted principles in the areas of human rights, labour, environment and anti-corruption, and to take action in support of UN goals and issues embodied in the Sustainable Development Goals (SDGs).

Verisure's Group Chief Executive Office Austin Lally commented: "This is a significant milestone in our sustainability journey as we continue to build on the great work already done across our Verisure countries and functions. The UNGC principles resonate with our purpose, DNA, and mission. We are people protecting people. I'm proud to see Verisure continue embedding sustainability further in our company, shaping a sustainable future and a better world together with more than 20,000 Verisure colleagues around the world.'

Launched in 2000, the UN Global Compact is the largest corporate sustainability initiative in the world, with more than 12,000 companies and 3,000 non-business signatories based in over 160 countries, and 69 Local Networks.
