

Verisure named among Fortune's 100 Best Companies to Work For in Europe

Geneva, 14 October, 2026 – Verisure, the world's leading provider of professionally monitored security services by customers served, has been recognised as one of the Fortune 100 Best Companies to Work For™ in Europe for 2026.

This marks Verisure's inaugural inclusion in the prestigious list. With more than 30,000 colleagues across 18 countries, Verisure has built a high-performance, people-focused culture centred on trust, inclusion and growth.

This commitment has earned widespread recognition, including being an outstanding employer in all its 18 countries, with additional certifications as Top Employer® Europe for the third consecutive year, as well as Financial Times' Europe's Best Employers (2025 & 2026). Several countries have also earned local Best Workplace recognitions, further reinforcing Verisure's position as one of Europe's leading employers.

Austin Lally, Verisure CEO, said: "This recognition comes from our colleagues themselves, and that is what makes it so meaningful. Every day, our teams protect families and small businesses, often at the moment they need us most. It is the passion and commitment of our colleagues that has helped us become the global leader in professionally monitored security services, and our continued investment in our culture and in their development helps us deliver the protection our customers rely on."

Verisure continues to invest in the development of its people through learning opportunities, training, leadership programmes and initiatives designed to support career growth and wellbeing.

Marta Panzano, Chief Human Resources, Communications and ESG Officer at Verisure, said: "Being recognised in Fortune's 100 Best Companies to Work For in Europe for the first time is a proud moment for all of us at Verisure. At the heart of this recognition is our commitment to creating an environment where people feel engaged, trusted and empowered to reach their full potential. We believe that when colleagues are given opportunities to learn, grow and make a meaningful impact, they can do their best work and build rewarding careers. This recognition reflects the culture our teams have built together, and belongs to every colleague across Verisure."

The Fortune 100 Best Companies to Work For Europe list recognises organisations that excel in business excellence and employee experience. It is based on Great Place To Work's proprietary Trust Index™ Survey.

Great Place To Work evaluates confidential feedback from employees, validating against HR data from participating companies. Only companies with consistently high survey responses from employees — regardless of their role, department, or status in the company — are honoured with placement on the list. Earning a spot on the list is an indicator of high levels of trust across the organisation, with more employees reporting a consistently positive experience at work.
