

Verisure to Join the STOXX Europe 600 Index

Effective 22 December 2025 – Strengthening Verisure's visibility in European equity markets

Geneva, Switzerland, 18 December 2025 – Further to the announcement by STOXX on 1 December 2025, Verisure, the leading provider of professionally monitored security services in Europe and Latin America, will be included in the **STOXX Europe 600 Index**, one of the most comprehensive benchmarks of the European equity market. The inclusion will become effective as of the opening of European markets on 22 December 2025. The STOXX Europe 600 Index is a leading European equity index that provides extensive and diversified coverage across 17 countries within Europe's developed economies, representing about 90% of the region's investible market.

Verisure's addition to the benchmark pan-European index is another important milestone for the company since it commenced trading on Nasdaq Stockholm on 8 October 2025. It signals Verisure's continued multi-year progress including its differentiated strategy to drive future growth.

"Joining the STOXX Europe 600 is a major milestone for Verisure," said **Austin Lally, CEO of Verisure**. "This inclusion cements our position as a leading public company within Europe and reflects market confidence in our differentiated business model and growth trajectory. The inclusion will allow for further expansion of our investor base and reinforces our commitment to delivering long-term value to our customers, employees, and shareholders."

Despite its already strong position, the company still sees significant growth potential across its footprint, currently protecting more than six million customers in 18 countries – including the recent addition of Mexico. Low penetration of monitored security in Verisure's markets offers expansion opportunities: current penetration is estimated at around four percent of homes and small businesses, compared to approximately 23 percent in the United States.

Since commencing trading on Nasdaq Stockholm, Verisure has also become a member of the OMX Stockholm All-Share Cap Index, which includes all shares listed on the Stockholm Stock Exchange, as well as FTSE All-World Index, which represents large and mid-cap stocks from the FTSE Global Equity Index Series.

Verisure announced its third quarter results on 26 November 2025, delivering another strong quarter of both operating and financial performance. Verisure reiterated its FY 2025 outlook of Annualised Recurring Revenues above 12% and Adjusted EBIT of €940M to 950M. The recurring revenues generated by the customer portfolio reflect the long-term nature of our relationship with our customers, whilst also offering resilience and exceptional levels of predictability, complemented by consistent margin expansion.

As the clear category leader in its footprint, Verisure's proven playbook of innovation, category-creating marketing, go to market excellence and superior customer experience continues to increase its competitive moat. The company looks forward with confidence as it compounds portfolio growth and margin enhancement.

Verisure will announce FY2025 financial results on 12 February 2026.

About Verisure

Verisure is the leading provider of professionally monitored security services with 24/7 response in Europe and Latin America. Every day, our dedicated teams use leading technology to Deter, Detect,

Verify and Intervene to protect over six million families and small businesses from intruders, fire, and health emergencies across 18 countries.

With over 35 years of insights, experience and innovation, Verisure is known for category-creating marketing, sales excellence, innovative products and services, and customer-centricity. Our mission is to give our customers peace of mind by protecting what matters most to them. We believe that everyone has the right to feel safe and secure.
