

Verisure achieves Top Ranking in Sustainalytics 2025 ESG Companies List

Top ranking achieved for second year in a row

Verisure, the leading provider of professionally monitored security services in Europe and Latin America, has been included by Sustainalytics on its 2025 Top-rated ESG companies list. Verisure has been recognized as an ESG Global 50 as well as industry and regional Top-Rated Company.

Verisure leads the Consumer Services industry group with the best rating, achieving a 'Negligible Risk' score, an outstanding distinction ranking us among the top 0.5% of c.15,000 companies worldwide. The rating achieved was 7.0, improving vs the 7.1 obtained in 2024.

The list is compiled by Sustainalytics, an independent ESG rating research organization part of the Morningstar Group and measures how companies manage some of the most important industry-specific ESG risks and provides a rating of each company's level of risk.

The list covers c. 15,000 companies across 42 industries and uses a proprietary methodology to rate companies in terms of ESG Risk Rating scores by industry and region. Key factors evaluated include business model, financial strength, geographic exposure and historical incidents.

"We are delighted to be among the top 50 companies globally for ESG risk management and for Verisure to be recognised by Sustainalytics for its work on this topic. This award is a testament to the great strides we have made on ESG in pursuit of our 2030 ambition. I would like to thank all our colleagues for their commitment to doing what is right for our customers, our communities and our planet" said Marta Panzano, Chief Human Resources, Communications and ESG Officer.

Verisure places ESG at the very core of who we are. It is embedded in our values and fundamental to what we do.
