

Verisure Recognised with Top Employer Europe Certification for the second time

Verisure, the leading provider of professionally monitored security services in Europe and Latin America, is proud to be awarded by the Top Employer® Institute, 2025 certification across five countries, as well as the illustrious Top Employer Europe® certification for the second time in a row.

The five countries receiving the Top Employer® certification for 2025 are Spain, France, UK, Italy and the Netherlands. This is a great achievement for all countries, who have repeatedly been awarded for their supportive and high-performance working environments.

The Top Employer certification program allows organisations to evaluate and enhance their workplace environment while recognising those dedicated to upholding the highest standards in people practices.

“We are honored to receive the Top Employer® certification across five countries and delighted to also be recognized with the Top Employer Europe® award once again, in addition to other recognitions across our footprint. This prestigious recognition underscores our commitment to creating an even more welcoming and inclusive workplace. Our people are fundamental to the service we provide our customers, as they stand ready to respond in an instant to protect what matters most.” said Marta Panzano, Chief Human Resources, Communications and ESG Officer.

These accreditations add to the growing list of awards, including the Great Place to Work® (GPTW) certifications, awarded in nine countries for 2024.
